Presentation of papers

XIV Latin American and Caribbean Congress of Agricultural Engineering

The purpose of these instructions is to provide guidelines for the submission of abstracts and full papers for publication in the Congress Proceedings.

For submission, please note that the presenting author and all co-authors must fill out the registration form. For submission it is necessary to fill in the form found in the "Submissions" option in the authors' area. In the registration form, you must select the area that best suits your research.

Abstracts and papers should be sent to the following email address: comite.cientifico.clia@uniucre.edu.co

Abstracts and papers should be in Spanish or English. Authors who are Spanish or Portuguese speakers and who are not comfortable writing in English are encouraged to have their papers reviewed by English language experts.

Abstract

The abstract will be reviewed to determine the appropriateness of the contribution to the conference and the appropriateness of the field selected by the authors. The abstract should describe the objectives, context and relevance of the research, the methodology used, the expected results and preliminary conclusions of the study. It should not include formulas or references. All co-authors should be listed, including their institutions and e-mail addresses. The abstract should be between 300 and 400 words (abstract template).

The abstract submission deadline is June 30, 2024.

Final paper

For accepted abstracts, authors must submit the final paper. Authors should respond to the reviewers' requests or recommendations by modifying the paper accordingly or by refuting the requests or recommendations. Authors should then submit the final paper, which will be reviewed again. The final decision will be acceptance or rejection.

The final paper will only be accepted if it is prepared strictly according to the conference format (Paper Format).

Poster Presentation

If the abstract is accepted for poster presentation, it must be presented in the poster format.

In the poster session, it is mandatory that one of the authors be present during the poster session to answer questions from interested parties. It is the responsibility of the authors to place the poster in the appropriate location according to the file name of the abstract of the presented poster, as well as its removal. Poster presentation certificates will not be issued if posters are not displayed during the appropriate time or if the author is not present during the session.

Papers or posters that are not presented during the congress will not be included in the official proceedings of the event. The deadline for submission of final papers is August 30, 2024.
